

**ILDNORD**

| Quality in simplicity

# Quality in simplicity

ILDNORD is a brand of wood-burning fireplaces and stoves that combines superior craftsmanship with competitive pricing.

Our products are manufactured using advanced production processes that incorporate fully automated technology. This ensures that all components and elements are precisely fitted, guaranteeing reliability, durability, and consistent production quality.

ILDNORD fireplaces and stoves meet strict Ecodesign standards and emission regulations, providing not only efficient but also environmentally friendly heating. They are the perfect choice for customers who value modern technology, functionality, and compliance with European environmental standards.

ILDNORD products are available for online purchase, allowing for a convenient shopping experience and quick access to our range from anywhere.

By choosing ILDNORD, you opt for an innovative approach to heating, precision craftsmanship, and environmental responsibility—all at affordable and competitive prices.

# 27 years experience

## ILDNORD – A New Brand with a Strong Heritage

ILDNORD is backed by 27 years of experience in designing and manufacturing fireplaces that have been heating homes across Europe for years. Although the brand itself is new, it is built on the knowledge, precision, and passion of a company that has been creating heating solutions appreciated by over a million customers for more than two decades.

## Polish Quality You Can Trust

All our products are made in Poland, in a modern factory equipped with advanced technologies. This allows us to have full control over the quality of craftsmanship – from the initial design to the final installation.

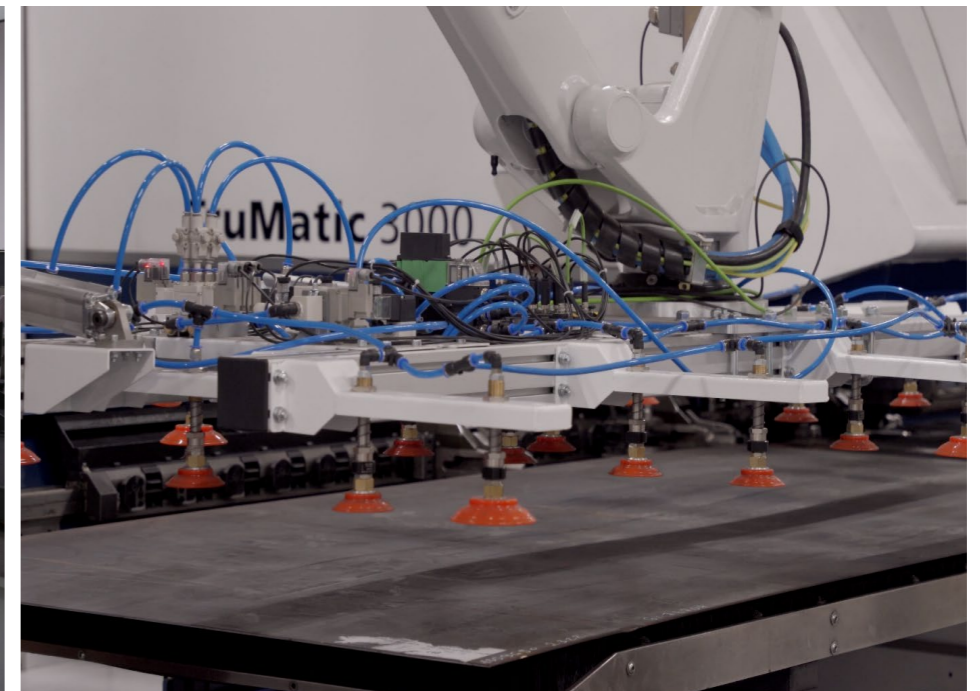

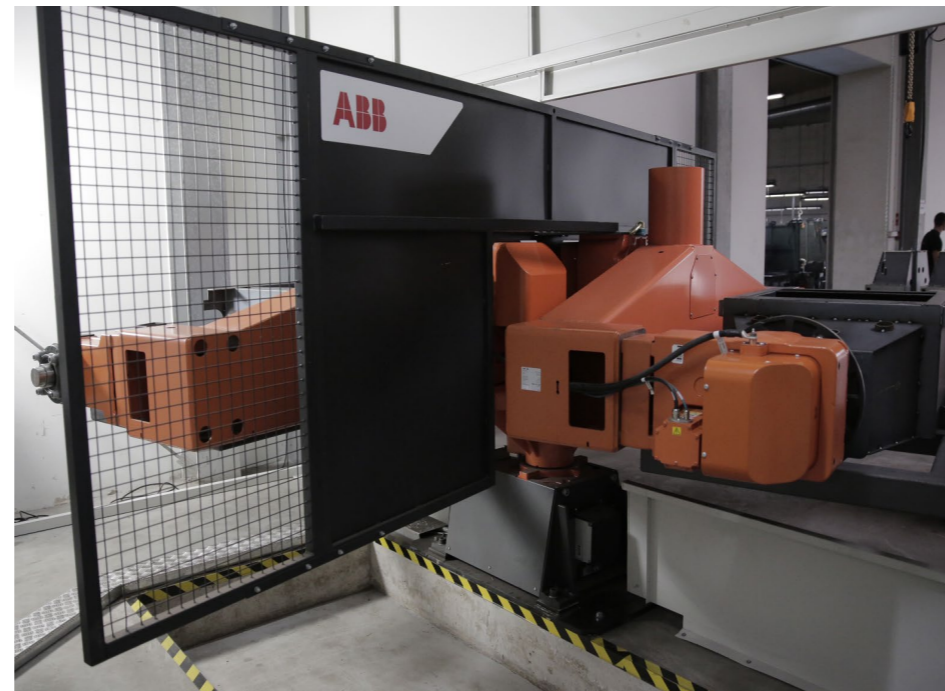

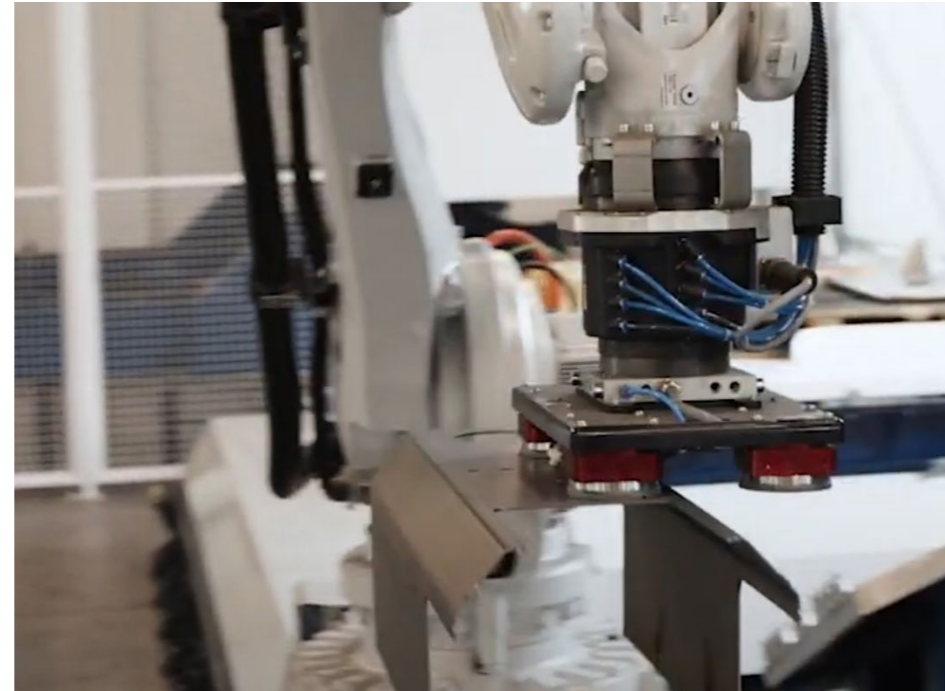

## Experience That Translates into Perfection

Every detail in ILDNORD products reflects years of expertise – from carefully crafted lines to thoughtful design and solutions that ensure safety, efficiency, and comfort.

## For Modern Homes and Conscious Users

We create devices that are not only beautiful but also environmentally friendly. In compliance with European ecological standards, they perfectly meet the needs of today's homes.

ILDNORD is a new brand – but with a strong foundation. By choosing our products, you are selecting a proven manufacturer and quality that will stay with you for years.

# ODYN

ODYN is designed for those who seek both performance and aesthetic impact in a larger format. Thanks to its corner glazing, you can enjoy the view of dancing flames from different angles.

The more you buy, the more you save!

Quantity	SKU	Unit price [net]
10 pcs	ODYN/SET10	
30 pcs	ODYN/SET30	
50 pcs	ODYN/SET50	

**ODYN**  
 Nominal power: 8 kW  
 Thermal efficiency: 78%  
 43.8x43.8x123.2

## Technical Specifications

Heating power range: 3 - 10 kW  
 Thermal efficiency: 78%  
 Energy class: A  
 Maximum log length: 30 cm  
 CO emission (at 13% O<sub>2</sub>): ≤ 0.059%  
 EEI factor: 103  
 Weight: 150 kg  
 Width: 43.8 cm  
 Height: 43.8 cm  
 Depth: 123.2 cm  
 Compliance: Ecodesign, BImSchV 2  
 Suitable for homes with heat recovery systems (recuperation)

## Material

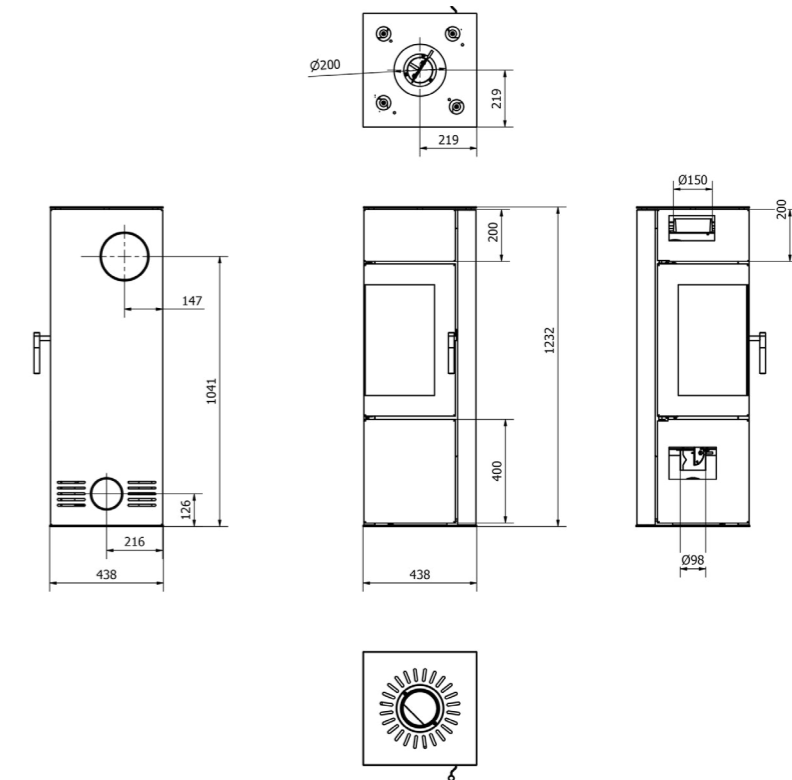

Steel, glass

## Combustion Chamber

Ceramic lining: white
